Project Name	EduGenie – AI Powered Educational Assistant
Maximum Marks	4 Marks

Empathy Map

Create an empathy map to understand your customer/user from four perspectives - what they Say, Think, Do, and Feel - in relation to the problem your project addresses. This helps the team build a customer-centric solution.

SAYS - I need quick answers to my study questions. - I want concepts explained in simple language. - I wish all learning tools were available in one place.		THINKS - There must be an easier way to learn difficult topics. - Personalized guidance could improve my learning - AI can help me study more efficiently.
	Rahul Sharma (College Student)	
DOES - Searches for explanations on Google and YouTube. - Uses different websites for quizzes and notes. - Practices topics before exams and assignments.		FEELS - Confused when concepts are difficult to understand. - Frustrated when information is scattered across platforms. - Motivated when learning becomes simple and interactive.
