

Problem-Solution Fit

Date	June 26, 2026
Team ID	SWTID-2026-6095
Project Name	EduGenie
Maximum Marks	5 Marks

Problem-Solution Fit Canvas:

Use the framework below to ensure your proposed solution accurately addresses the root causes, behaviors, and limitations of your target audience. Fill out the canvas in the respective boxes just like the original visual template.

1. CUSTOMER SEGMENT(S) [CS] Students, self-learners, and educators across academic levels.	6. CUSTOMER LIMITATIONS (e.g. budget, devices) [CL] Limited budget, low-spec/resource-constrained devices, inconsistent internet, limited study time.	5. AVAILABLE SOLUTIONS – PROS & CONS [AS] Tutors (personalized but costly), search engines (fast but unstructured), YouTube (visual but slow), generic AI chatbots (versatile but not education-focused).
2. PROBLEMS / PAINS + ITS FREQUENCY [PR] Slow concept understanding, no instant doubt-solving, hard self-assessment, tedious summarizing – all frequent, daily pains.	9. PROBLEM ROOT / CAUSE [RC] No single lightweight tool combines Q&A, explanations, quizzes, summaries, and roadmaps – forces tool-switching.	7. BEHAVIOR + ITS INTENSITY [BE] Constant tool-switching for explanations/quizzes; intensity spikes near exams.
3. TRIGGERS TO ACT [TR] A doubt while studying, upcoming exam, or starting a new topic needing a roadmap.	10. YOUR SOLUTION [SL] EduGenie: FastAPI + HTML/CSS app combining local models and Gemini AI for instant Q&A, explanations, quizzes, summaries, and learning paths – runs efficiently even on Mac M1.	8. CHANNELS OF BEHAVIOR [CH] ONLINE Search engines, YouTube, tutoring apps, forums.
4. EMOTIONS BEFORE / AFTER [EM] Before: confusion, anxiety. After: clarity, confidence.		OFFLINE Textbooks, classrooms, study groups.
